****Draft** Forest Weed Group Scaling Rubric:**

Point Value:	1	2	3	4
Proximity to Mukwonago River or tributary	Within 10 miles	Within 5 miles	Within 1 mile	Within county shoreline jurisdiction
Proximity to Mukwonago River environmental corridors	Within 10 miles	Within 5 miles	Within 1 mile	Within county shoreline jurisdiction
Proximity to other properties in the project	Within 5 miles of 1 other applicant	Within 5 miles of 2 other applicants	Within 5 miles of 3 other applicants	Within 5 miles of 4 other applicants
Number of “High Concern” invasive species located on property	1 or more	2 or more	3 or more	4 or more
Number of “Moderate Concern” invasive species located on property	1 or more	2 or more	3 or more	4 or more
Total number of acres planning to restore (max. 4 acres reimbursable)	Fewer than 5	5-15 acres	15-20 acres	More than 20 acres
Willing to host demonstration events	N/A	N/A	N/A	Yes

Alternative considerations (in no particular order):

1. Ability to serve as an educational demonstration site
2. Ability to utilize a variety of restoration techniques
3. Verification of completed work prior to payment
4. Limited soil disturbance
5. Preservation of existing native species
6. Previous restoration experience
