## **Friends of the Mukwonago River 2015 Community Paddles & Hikes/Events/Demonstrations**

Based on the tremendous response in 2013 and 2014, Friends has put together a schedule of paddle and hikes that explore the many wonderful corners of the Mukwonago River Watershed. Events are being finalized at this time. Specific event times, directions, guides will be available on the Friends' website ([mukwonagoriver.org](http://mukwonagoriver.org)) closer to the actual dates.

This is a very full calendar of fun and educational events. We hope you can come to at least a few of them.

**Logistics for paddles and hikes:** Attendees must provide their own boats, PFDs, paddles, snacks, water, sunscreen, insect repellent, etc. Friends will help to coordinate shuttles from the end of the paddle back to the starting point to pick up personal vehicles. Each attendee must sign a Friends' liability release prior to the start of the paddle or hike.

### **March**

**Saturday 21**

**Annual Meeting & Volunteer Recognition at Town of Eagle Municipal Building**

9:30am-Noon

820 E Main St. Eagle 53119

**Sunday 29**

**Hike the Meyer Nature Preserve 11:00am-Noon**

(Jerry Ziegler, Nature Conservancy)

**Directions:** The preserve is located at S104-W38319 Highway 67, about 2.5 miles southwest of Eagle. The entry drive is one mile southwest of the intersection of Highway 67 and Highway L0.

A picturesque combination of woodlands, restored prairies and wetlands, this 652-acre preserve is a primary headwaters for the Mukwonago River. There are 3 miles of hiking trails on the preserve and we will explore the varied ecosystems that these trails pass through as we learn about the work that has been done by The Nature Conservancy to protect this crucial uplands habitat that helps to preserve the health of the Mukwonago River.

The mission of the Friends of the Mukwonago River is to protect the Mukwonago River and its associated watershed ecosystems by way of education, advocacy, and promotion of sound land use throughout the watershed. We are a 501(c) (3) non-profit organization and your donations are tax deductible to the extent allowable by law.

P.O. Box 21, Eagle WI 53119

## April

Thursday 16

**Invasive Species Education Series Workshop 6:00pm-8:00pm**  
**Got Buckthorn? Tips for Landowners** (Carl Korfmacher, Midwest Prairies)  
WI DNR State Forest Headquarters, S91w39091 Hwy 59, Eagle 53119

Saturday 18

**Earth Day Celebration at Nature's Classroom Institute Property**  
**Invasive Species Education Series Demonstration & Hike to Jericho Creek in partnership with Nature's Classroom Institute 10:00am-2:00pm**

P.O. Box 21, Eagle WI 53119

## May (cont.)

**Sunday 10**

**Kettle Moraine Land Trust Mother's Day Hike at Rainbow Springs Lake 8:00am**  
Join the walk at Rainbow Springs on County Rd. L0, 0.5 miles east of County Rd. E. Wear sturdy shoes and bring your own water and binoculars, if you have them. The walk will cover about 1.5 miles with some changes in elevation. Please leave pets at home; they would scare the birds!

**Thursday 14**

**Invasive Species Education Series Workshop  
Landowner Invasive Species Removal Walking Tour**  
(Brittany Frederick, Landowner)  
Frederick Property, W5198 Bluff Rd. Eagle, WI 53119

**Saturday 16**

**Oak Savanna Alliance Workshop at Camp Timber-Lee  
Invasive Species Education Series Demonstration *in partnership with Oak Savanna Alliance* 9:00am-4:00pm**  
N8705 Scout Rd, East Troy 53120  
**Field Trip to LuLu Lake** Time TBD  
Savaiano Property w/ Kettle Moraine Stewards  
N9385 Lulu Lake Rd. East Troy 53120

## June

**Sunday 7**

**4<sup>th</sup> Annual Watershed Pancake Breakfast at Lake Beulah Yacht Club  
*in partnership with Lake Beulah Protective and Improvement Association***  
N9220 E Shore Rd, East Troy 53120

**Sunday 21**

**Father's Day Paddle the Mukwonago River**  
**Directions:** From the main entrance to the Mukwonago River Unit of the Kettle Moraine State Forest (former Rainbow Springs). The parking lot is on County Highway L0 approximately a mile east of County Highway E.

Culverts were installed in the Mukwonago River and the route of the river was moved in several places when the Rainbow Springs golf course was built. Seven culverts were removed in 2013 and the river has returned to its original path. Those of you who paddled the river with Friends in 2013 saw this work in process.

The mission of the Friends of the Mukwonago River is to protect the Mukwonago River and its associated watershed ecosystems by way of education, advocacy, and promotion of sound land use throughout the watershed. We are a 501(c) (3) non-profit organization and your donations are tax deductible to the extent allowable by law.

**P.O. Box 21, Eagle WI 53119**

Join us to see this restored segment of the Mukwonago River and experience the portage-free paddle. Increases in populations of important river flora and fauna have already been observed now that the river has been allowed to flow naturally. The paddle will end at Beulah Road, although you can go on to County Highway I certain times of year before the wild rice takes over.

## **July**

**Saturday 18**

**Hike Baker Nature Preserve** (Jerry Ziegler, Nature Conservancy) 11:00am-Noon  
**Directions:** The parking lot is at N9468 Scout Road, just south of Bluff Road. The hike will focus on the history of the property and the restoration that has occurred since the TNC purchased it in 2006. The hike will go down to the Mukwonago River, which at the back of the property is a clear, cold gravel-bottomed stream fed by springs coming out of the wet meadow on the property.

**Saturday 25**

**Adopt-A-Highway Clean-Up at County Road LO**

**Sunday 26**

**Adopt-A-Highway Clean-Up (Rain Date) at County Road LO**

## **August**

**Tuesday 4**

**Invasive Species Education Series Workshop- Citizen Monitoring** 6:00-8:00pm  
Mukwonago Community Library, 511 Division St. Mukwonago 53149

**Saturday 8**

**Invasive Species Education Series Demonstration- Citizen Monitoring**  
(Tony Summers, Great Lakes Early Detection Network)  
Location TBD

**Saturday 15**

**Paddle the Lake Beulah Tributary**

**Directions:** From County Highway J (west of Double D's bar) Vehicle access limited. The unnamed tributary that flows over the Lake Beulah dam on the north end under County Highway J. Vehicle access is limited.

Flowing through lush wetlands and sandy bottomed, this little visited tributary offers a beautiful paddle route through an ecologically significant area of the

**P.O. Box 21, Eagle WI 53119**

watershed that supports abundant mussel populations. Paddlers have a choice of routes at the Mukwonago River fork– paddle upriver to Beulah Road or extend the trip by heading downriver to County Highway I.

## **September**

**Saturday 12**

### **Paddle Eagle Springs Lake to Lulu Lake**

**Directions: WDNR Eagle Spring Boat Launch, Wambold Road off of County Highway E**

The classic Mukwonago River paddle. Boat rentals available at Eagle Springs Pub. Lulu Lake is a 95-acre kettle lake with excellent water quality and surrounding fens, bogs, sedge meadows, prairie remnants and oak openings. Lulu Lake State Natural Area includes more than 1,800 acres of WDNR/Nature Conservancy land, offering visitors a rare opportunity to experience this diversity of ecosystems in close proximity.

**Thursday 17**

### **Invasive Species Education Series Workshop at Town of Eagle Municipal Building: Prairie Restoration for the Landowner**

(Dan Carter, Southeast Wisconsin Regional Planning Commission)  
820 E Main St. Eagle 53119

**Saturday 19**

### **Invasive Species Education Series Demonstration Prairie Restoration for the Landowner**

(Jacki Lewis, Landowner & Dan Carter, Southeast Wisconsin Regional Planning Commission)

Lewis-Aducci Property, S90w34240 County Road NN, Eagle 53119

## October

**Tuesday 13**

**Invasive Species Education Series Workshop 6:00-8:00pm**  
Mukwonago Town Hall, W320s8315 Beulah Road, Mukwonago 53149

**Saturday 17**

**Mukwonago River Watershed Educational Event &  
Invasive Species Education Series Demonstration**  
Location TBD

**Sunday 18**

**Hike Pickerel Lake Fen** Exact starting point to be provided.  
Among the most rare wetland type in North America, fens rely on natural springs and require very specific conditions. Pickerel Lake Fen is biologically diverse and supports a number of rare or endangered species. Oak openings are being restored, an ecosystem characterized by large bur and white oaks with a prairie-like understory of grasses and wildflowers.

## October (cont.)

**Saturday 24**

**Adopt-A-Highway Clean-Up at County Road LO**

**Sunday 25**

**Adopt-A-Highway Clean-Up (Rain Date) at County Road LO**

## November

**Saturday 14**

**Wild Ones Watershed Educational Workshop**
