

DNR Forest Weed Grant Private Landowner Application (2016-17)

Lands must be located within the Mukwonago River Watershed

Name: _____

Phone: _____

Physical Property Address: _____

Email Address: _____

Property:

Total number of acres planning to restore (maximum of 4 acres eligible for reimbursement): _____

Total number of contiguous/adjacent acres to be restored: _____

Total number of acres for cost-share reimbursement under this project (completed by 6/1/17): _____

Types of invasive species known to be present on your property: _____

Invasive Removal:

Are you willing to work with Friends to host educational demonstrations on your property? _____

Previous Invasive Species Removal Experience (no experience required to be eligible): _____

Methods interested in utilizing for invasive species removal (please circle):

- | | | |
|---------------------|-------------------------------|--------------|
| Basal Barking | Pulling | Other: _____ |
| Selective Herbicide | Mechanical Cutting Controlled | _____ |
| Cut Stump Treatment | Burning | _____ |

Land Management:

Does your property have direct water access? _____

Plans for follow-up restoration on property post-removal _____

What is your anticipated timeframe for restoration of the project area? _____

Which of these species are known to be present on your property (please circle)? More information on species of concern can be found in the [WI DNR's NR 40 List](#).

High Concern (examples)

- Autumn Olive/Russian Olive
- Honeysuckle
- Oriental Bittersweet
- Japanese Barberry
- Hogweed
- Hedgeparsley
- Japanese Hops
- Japanese Knotweed
- Wild Parsnip

- Burning Bush (Euonymus alata)
- Black Locust
- Wild Chervil
- Crown Vetch
- Dame's Rocket
- Multiflora Rose
- Siberian Elm

Please attach a preliminary forest management strategy. Friends will work with you to develop a forest management plan prior to establishing a reimbursement contract.

Forest Weed Group Scaling Rubric:

Point Value:	1	2	3	4
Proximity to Mukwonago River or tributary	Within 10 miles	Within 5 miles	Within 1 mile	Within county shoreline jurisdiction
In Mukwonago River corridor?	No	Within 10 miles	Within 5 miles	Yes
Proximity to other properties in the project	Within 5 miles of 1 other applicant	Within 5 miles of 2 other applicants	Within 5 miles of 3 other applicants	Within 5 miles of 4 other applicants
Number of “High Concern” invasive species located on property (NR 40 Prohibited)	1 or more	2 or more	3 or more	4 or more
Number of “Moderate Concern” invasive species located on property (NR 40 Restricted)	1 or more	2 or more	3 or more	4 or more
Total number of acres planning to restore (max. 4 acres reimbursable)	Fewer than 5	5-15 acres	15-20 acres	More than 20 acres

Alternative considerations (in no particular order):

1. Willingness to serve as an educational demonstration site
2. Ability to utilize a variety of restoration techniques
3. Verification of completed work prior to payment
4. Limited soil disturbance
5. Preservation of existing native species
6. Previous restoration experience
7. Educational viability
8. Willingness to serve as ambassadors for neighbors and community members
